FROM THE PRINCIPAL'S DESK

In lives, we receive so much but all we remember is to focus on what we don't have. Rather we must cultivate a grateful attitude that allows us to appreciate what we have. Sharing a small anecdote! Thanksgiving Day was nearby. The first-grade teacher gave her class a fun assignment — to draw a picture of something for which they were thankful. Some drew toys, some clothes and others shoes. However, Douglas was a different kind of boy. As other children played at recess, Douglas was likely to stand close by her side. The teacher saw everyone's picture and saw Douglas' picture to be very different. When asked to draw a picture of something for which he was thankful, he drew a hand. Nothing else. Just an empty hand. His abstract image captured the imagination of his peers. Whose hand could it be? One child guessed it was the hand of a farmer, because farmers give food. Another suggested a police officer, because the police protect and care for people. Still others guessed it was the hand of God, for God feeds us. And so the discussion went on. When the children had gone on to other assignments, she paused at Douglas' desk, bent down, and asked him whose hand it was. The little boy looked away and muttered, It's yours, teacher.

She recalled the times she had taken his hand and walked with him here or there, as she had the other students. How often had she said, Take my hand, Douglas, we'll go outside. Or, Let me show you how to hold your pencil. Or, Let's do this together.

Douglas was most thankful for his teacher's hand.

This story speaks of more than thankfulness. It says something about teachers teaching and parents parenting and friends showing friendship, and how much it means to the Douglases of the world. They might not always say thanks. But they'll remember the hand that reaches out.

INVESTING IN THE FUTURE TODAY: INVESTITURE CEREMONY

Leadership is the capacity to translate vision into reality
- Warren Bennis

The investiture ceremony signifies the belief and poise that the school consigns in the newly invested office bearers. In this unique virtual dais, the virtuous deserving young Lancerians were formally bestowed with the responsibility of leading their School from the front with their commitment, confidence and competence. A born leader has the ability to lead irrespective of his place or situation. After a thorough selection process, the torch bearers for new session were sworn in on their new posts. It was a solemn occasion where the young students were all prepared to don the mantle of premiership and discharge the functions entrusted upon them by the school. The ceremony was flagged off with an inspiring message by the school Principal Ms. Latesh Chaudhary who congratulated the newly appointed school council members and their preparedness to take up responsibilities entrusted onto them. She entreated the students to follow what they preach and translate the vision of the school into reality. The first ever Virtual Investiture Ceremony was yet another milestone reached in the journey of distance learning! The newly elected student leaders pledged to bestow their duties to the best of their abilities and the ceremony concluded to rousing cheers!

Crowning Glories in CBSE result : Its Victory all the way!

People who changed the world were workaholics and help us conclude that nothing worth having comes easy. Daily hard work and persistence are the price we pay! Lancerians surely know how to do it well! Their hardwork has always made us the one of the best schools in the area and we are proud to showcase the majestic glories of our students in national level in the class X and XII board exams. Hail the

toppers!

KARGIL VIJAY DIWAS

The "Kargil War-1999" is known for the glorious victory and valour of Indian soldiers. As every year 26th July is celebrated as Kargil Vijay Diwas to commemorate the victory, valour and sacrifice of our brave soldiers. The day marks the victory of Indian armed forces in Operation Vijay in 1999, when they evicted the infiltrators backed by Pakistani army from high outposts in Kargil sector. On this Kargil Vijay Diwas-2021, Lancer's Convent remembered the greatest Indian military war through a virtual assembly. The tales of valour and courage were showcased in order to commemorate the sacrifices made by soldiers in a 60-day long war where the Indian Army recaptured all the Indian posts in Kargil that had been occupied by Pakistan's army. The students paid tribute to martyrs who made supreme sacrifice while defending countries sovereignty.

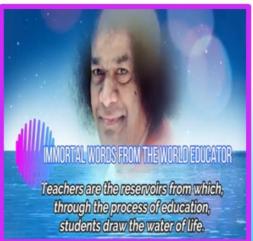

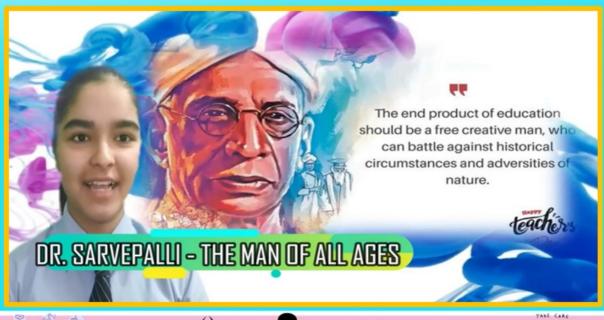

HONOURING OUR MENTORS ON TEACHER'S DAY

Teachers' Day is reminiscent of all those teachers who influence our lives profoundly and bring back nostalgic and sweet memories. A good teacher can inspire, ignite the imagination and instil a love of learning. The Covid-19 pandemic might have shaken up the world, but teachers have shown their resoluteness to tackle even this problem with their expert skills at innovation and their tenacity to impart knowledge even in the most trying situations. Enthusiasm and festivity marked the Teachers' Day celebration at Lancer's Convent this year too, despite the new normal, which is proof of how much the teachers are appreciated. A short virtual celebration, through a pre-recorded video, was organised for the teachers by the students, in which they engaged themselves in unbridled capacity to shower love, admiration and respect to their teachers through song, dance and by conveying regards from their homes.

Honourable Principal, also greeted the teachers and lauded the teachers for their commitment to education, dedication and sincere efforts.

TOKYO OLYMPICS-2021

The Seven Samurai crew of India produced it's richest-ever medal haul 1 gold, 2 silver, 4 bronze and the finest performance of all times at Tokyo Olympics. Here are the men and women of steel and thunder who made India proud and gave something to cheer about in these dark times of a deadly pandemic. A javelin throw of 87.58 metres got us gold at last, assuring India a glittery haul of seven medals awarded so far at the 2020 Olympic Games nearing their conclusion in Tokyo. Neeraj Chopra's went the farthest, a good 91 centimetres ahead of where the next best spike pitched. A gold medal around his neck is an inspiration to the country, as endorsed by a chorus on social media. Mirabai Chanu, the amiable 26-year-old from Manipur made light work of the heavy weights to clinch a silver with a smile in the 49kg category. Redemption had never been more satisfying and sweeter for the woman who picked up logs to gather winter fuel for her family as a child. Ravi Kumar Dahiya fought hard but lost in the final to become India's second silver medal-winning wrestler after Sushil Kumar. A fiercely determined athlete, he could well improve upon his medal in many more events to come. Men's Hockey team, P. Sindhu and many more have shown promising results inspiring many youngsters to take up sports as a career. The competitive arena at Tokyo was not the only place where athletes were making a statement at the Olympic Games but also inspiring the future generations to come forward.

Azaadi Ka Amrut Mahotsav

"Learn from yesterday, live for today, hope for tomorrow."

As each year passes, new challenges emerge nationally or globally. So, it becomes imperative for us to remember the sayings of such great people to keep us going. This year celebrating the 75th Independence Day, we ensured to remind the students to never lose hope no matter how tough the going gets.

A special assembly was organized for the occasion and the students were taken on a trip down the memory lane reminding everyone of the immense contributions of our freedom fighters for the independence of our country. The highlight of the event was experiences shared by the grandparents of the students telling us about sad reality of the partition. Students from the junior classes added colour to the event with their enticing performances. The day was concluded with Madam Principal giving us her words of wisdom and reminding us how lucky we are to be a part of such an incredible nation

Albert Einstein

EYES ON THE ROAD

A driver on the highway is safe not when he reads the signs on the road but follows them.

After all, road sense is the offspring of courtesy and the parent of safety. Everyone uses roads and is prone to the risk that it brings along with itself. Hence, choosing Road safety is the wisest thing an individual can do for himself and his family. Therefore, to lay an early foundation of traffic rules in our lives, Mr. Neeraj from Delhi Traffic Police apprised us about the basics of the system. He was accompanied by representatives from Hero Motor Corporation- the leading manufacturer of trusted vehicles in India. The session was an eye-opener for the torch-bearers of the future.

CHISELLING THE ROAD TO A BRIGHT FUTURE

In each of us rests the power to shape our future and it will be shaped by our action or inaction. The Pratham team experts were warmly welcomed on behalf of Lancers fraternity in order to guide the young fledglings to take their flight to success. The session was centered around career counseling and emphasis on its relevance. Career counseling, from a theoretical perspective, is a discipline in itself amidst the chaotic array of options where professional help goes a long way in equipping us with opportunities. speaker Mr. Praveen Khanna, a postgraduate in English and MS in psychotherapy, and a government certified Business Communication Specialist Training and Development Manager, exuded his decade-long experience that assisted students choosing a defined career path. The workshop provided complete contentment to the young aspirants.

SHUTTLE ME INTO SPACE

"That's one small step for a man, one giant leap for mankind."

- Neil Armstrong

Remembering the famous words of the astronaut Neil Armstrong when he became the first man to walk on the surface of the Moon, we can't help but think going into space is an opportunity entirely reserved for the astronauts.

Well, not anymore kids as SpaceX, an aerospace manufacturing company founded by the famous CEO of Tesla Motors Elon Musk has now made it possible to dream big. All thanks to Musk, civilians can now go as tourists and see the outer space (or maybe aliens too).

Before you get too excited, let us tell you the costs involved because in life there aren't any free lunches. You will need a whopping 55 million US dollars (4,05,05,85,000 INR) in order to be a part of this Space Civilian program.

Too many zeroes for you? Well, all we can do is be a part of a virtual tour of space or maybe study hard and get hired by Mr. Musk (whatever works for you really). Till then click this https://www.youtube.com/watch?v=n4lhCSMkAD

and go and watch how beautiful earth looks in outer space.
