

India at 75 Youth Ideathon Challenge 2021 2022

Innovators are hailed as change-makers who have the potential to paint the blue-sky crimson. In the competitive times of today, Darwin's theory of survival of the fittest also applies to creative ideas. And what better people to produce them if not our young generation. India is a young country with youth constituting a major chunk of the population they are spirited and brimming with bright ideas. Their contribution to the cause of problem solving can be a major factor in us taking leaps of progress.

The Youth Ideathon 2021 program was launched in the similar vein to tap the creative ideas of India- students, teachers, and parents. This would further sow the seeds of entrepreneurial mindset and motivate students towards creative solutions to the problems faced and with a positive leadership.

The event conducted in the month of September 2021 was open for students and parents of classes VI to XII. Lancerians bubbling with ideas participated in huge numbers and presented their creative ideas ranging in all areas. The ideas were inspired from the present to the future and extremely innovative. Also, the humongous participation from the school got the school recognition and Principal mam and Academic Head the award of 'Teacher of Innovation' and a title of –' You're a Changemaker'.

Ms. Deepika Chand and Ms. Chandana Chakraborty , the teachers from the Pre Primary Department from the school were felicitated with a certificate for their magical ability to inspire students to be problem solvers and the school bagged – 'School of Innovation Trophy'.

A pan-India recognition followed by a special invite to the award ceremony was a prestigious moment for the school wherein the school's efforts were lauded amidst an august gathering.

We wish to take this achievement to the next level in future and keep the flickering ideas alive and kicking!
